Education

Nova Scotia Community College

Post Graduate Certificate, Full Stack Application Development

Halifax, NS

Sep. 2023 – May 2024

Mount Saint Vincent University

Diploma, Business Administration

Halifax, NS

Jan. 2020 – Dec. 2021

Experience

Full Stack Developer

MyCouponbook

Sep. 2024 – Present

Halifax, NS

- Engineered a production-grade payment and subscription system using Django REST Framework, React, PostgreSQL, and Braintree payment gateway to support recurring billing, one-time checkout flows, secure card vaulting, duplicate payment prevention, and Celery-driven recovery workflows for failed payment synchronization events.
- Architected a Points Allocation System using Django, React, and PostgreSQL, enabling businesses to review and manage customer reward requests through real-time polling for 200+ active users.
- Designed and implemented a rule-based promo code engine supporting percentage and flat discounts, subscription billing-cycle limits, location-restricted eligibility (city/province), product-specific validation, usage tracking, and atomic concurrency-safe redemption logic.
- Implemented CI/CD pipelines using Docker, GitHub Actions, AWS EC2, and Amazon S3, automating frontend and backend deployments while improving deployment reliability and development consistency.

Full Stack Developer (Internship)

Truverus

May 2024 – Sep. 2024

Halifax, NS

- Built and integrated RESTful APIs using Node.js and Express.js, implementing middleware, routing, and backend business logic for scalable application workflows.
- Designed responsive, interactive UI components in React using hooks and advanced state management patterns, improving cross-device usability.

Technical Advisor II

Concentrix Technologies

Jan. 2022 – Jul. 2023

Dartmouth, NS

- Resolved hardware, software, and networking issues for enterprise clients, handling 100+ monthly cases with consistent above-average first-contact resolution.
- Maintained accurate records of customer interactions, enabling seamless case handoffs and follow-through across the support team.

Projects

Milkyway | Next.js, Django, DRF, PostgreSQL, AWS RDS, Google OAuth

May 2024 – Jun. 2024

- Built a full-stack food ordering app using Next.js with SSR and SSG for fast load times and SEO-optimized pages.
- Integrated Google OAuth for secure authentication and deployed a normalized PostgreSQL schema on AWS RDS for scalable data management.

Chattify AI | React, Node.js, Express.js, OpenAI GPT-3.5

Feb. 2024 – Mar. 2024

- Built a real-time AI chatbot integrating OpenAI GPT-3.5 for dynamic conversational responses with under 100ms average latency.
- Implemented speech-to-text via react-speech-recognition, enabling hands-free voice interaction alongside standard typed input.

Shoppe | React, Node.js, Express.js, MongoDB, Stripe, Firebase

Dec. 2023 – Feb. 2024

- Engineered a full-stack MERN e-commerce platform with an admin dashboard for product and order management.
- Implemented JWT auth, RBAC, Stripe payments, and Firebase image storage for complete checkout workflows.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, HTML/CSS

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Django, Django REST Framework, Redux, TailwindCSS,

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS EC2, S3, RDS, Docker, GitHub Actions, CI/CD

Tools & Testing: Git, Postman, Jest

Certifications: AWS Certified Cloud Practitioner
